

SEMESTER LESSON PLAN

LESSON PLAN DEVELOPER(S):

Dr. Ir. Mohamad Fadjar, M.Sc

Lecturer in Cultivation Development, Faculty of Fisheries and Marine Science, Universitas Brawijaya

**AQUACULTURE MASTER'S PROGRAM
FACULTY OF FISHERIES AND MARINE SCIENCE
UNIVERSITAS BRAWIJAYA
2021**

SEMESTER LESSON PLAN

1. Course Identity

Study Program	: Aquaculture Master's Program
Course	: Cultivation Development
Course Code	: PIB8101
Course Group	: Production and Reproduction
Credit	: 3
Degree	: Master's Degree
Semester	: 1
Pre-requisite	: (If any, write the course code)
Status	: Compulsory of Interest
Lecturers' Names and Codes	: Dr. Ir. Mohamad Fadjar, M.Sc Dr.Ir. Maheno Sri Widodo, MS Dr. Yunita Maimunah, S.Pi., MSc. Dr. Yunita Maimunah, S.Pi., MSc. Dr. Ating Yuniarti, S.Pi., M.Aqua. Dr.Ir. Arning Wilujeng Ekawati, MS. Prof.Dr.Ir. Arief Prajitno, MS.

2. Course Description

This course discusses the basic concepts of aquaculture development. Aquaculture development is very closely related to innovations in aquaculture and technologies to support sustainable aquaculture. In aquaculture development, students have to understand and be able to manage sustainable aquaculture development through innovations in nutritional aspects and fish health.

3. Program Learning Outcomes (PLO)

1. Being able to develop the existing concepts and create new knowledge in the field of sustainable aquaculture and Best Management Practices of Aquaculture.

4. Course Learning Outcomes

After completing this course, students will be able to:

1. understand the basic concepts of aquaculture development
2. understand innovation and technologies to support sustainable aquaculture.
3. understand and carry out the management of sustainable aquaculture development based on new innovations both in terms of nutrition and fish health..

5. Lesson Plan

Week	PLO Indicator	Topic	Learning Method	Time Allotment	Learning Activities	Scoring	Learning Sources
1.	1.1 Comprehension in the basic concepts of aquaculture development	Introduction - The definition of development and aquaculture - Basic concept of aquaculture development	• Lecture (S)	2	Note taking (A) Working on assignments (A)	Criteria: Scoring Guidelines Non-test: summarizing lecture materials (A)	1) Arning, W.E. et al. (2017)The Influence of Fermentation Time in the Physical and Chemical Composition of Fermented Soybean Husk by Using Aspergillus niger on the Quality of Raw Feed Materials. The Journal of Experimental Life Science. 6(1): 52-57 2) Fadjar. et al. (2016) A Simple And Effective Method For Calculation And 3d Visualization Of Biofilm Produced By Vibrio Cholerae. Media Penelitian Dan Pengembangan Kesehatan. 25(3): 147-152

Week	PLO Indicator	Topic	Learning Method	Time Allotment	Learning Activities	Scoring	Learning Sources
2.	2.1 Comprehension of innovations and technology advancement in supporting aquaculture	Aquaculture technology - Innovations in technology that support aquaculture	<ul style="list-style-type: none"> Lecture (S) Assignment (A) & Presentation (S) 	2	Note taking (A) Working on assignments (A)	<p>Criteria: Scoring Guidelines</p> <p>Non-test: - summarizing lecture materials (A) - group or independent presentation(S)</p>	<ol style="list-style-type: none"> Arning, W.E. et al. (2017)The Influence of Fermentation Time in the Physical and Chemical Composition of Fermented Soybean Husk by Using Aspergillus niger on the Quality of Raw Feed Materials. The Journal of Experimental Life Science. 6(1): 52-57 Fadjar. et al. (2016) A Simple And Effective Method For Calculation And 3d Visualization Of Biofilm Produced By Vibrio Cholerae. Media Penelitian Dan Pengembangan Kesehatan. 25(3): 147-152
3.	3.1 Comprehension of issues regarding aquaculture development and environmental-based approach	Aquaculture development based on environmental approach - Issues in aquaculture development from environmental perspective	<ul style="list-style-type: none"> Lecture (S) Assignment (A) & Presentation (S) 	2	Note taking (A) Working on assignments (A)	<p>Criteria: Scoring Guidelines</p> <p>Non-test: - summarizing lecture materials (A) - group or independent presentation(S)</p>	<ol style="list-style-type: none"> Arning, W.E. et al. (2017)The Influence of Fermentation Time in the Physical and Chemical Composition of Fermented Soybean Husk by Using Aspergillus niger on the Quality of Raw Feed Materials.
